

To Whom It May Concern:

I am delighted with the design of the Georgian home which Dinyar Wadia and Wadia Associates prepared for my property at the top of Round Hill Road. The style of the house and the functional aspects were seamlessly integrated with the building site and my requirements. Upon my approval of the preliminary sketches, Dinyar completed the schematic phase of the work, incorporating my comments into the process. I also received a beautiful watercolor rendering, which gave me a clear idea of what my house would look like when complete.

I am pleased to say that I was the recipient of:

- High-quality/exceptional design services complemented with wonderful details.
- An efficient design process complemented with a clarity of thought that responded to my requirements.
- Rough budgets to help me finalize the square footage of my house.
- Pertinent suggestions regarding the quality of life and my enjoyment of the home.
- Expertise with municipal authorities – wetlands, zoning, building codes, etc. – to facilitate the process of obtaining a building permit prior to completion of the final documents, thereby preventing the usual delay in commencing construction.

Most importantly, I found Dinyar to be creative and very enjoyable to work with. His three decades of experience in the high-end design world are easily discernible when one looks at the manner in which the house flows and the way it looks from the outside. Just as importantly, his professional standing is reflected in the ethical manner in which he conducts business.

I am happy to recommend Wadia Associates to anyone who is looking to have a fine home design.

Sincerely yours,
