

It is my pleasure to write this letter of recommendation on behalf of Dinyar Wadia and Wadia Associates. My project began with many conversations based on living.... how does my family live, what is a priority, what is ideal, what is necessary, how do I envision waking up, describe ideal living, imagine my dream room. The process went smoothly from discussions to the drawing board to breaking ground. Dinyar was there every step of the way. The day we broke ground was one of the most exciting ever. The confidence we felt increased after our first meeting with our Project Manager, Warren Wilson.

Warren, along with the team at the home office, built the most magnificent home for our family. The home we live in, and have enjoyed for the past year, is everything I imagined. When the wind is howling outside my home, I do not hear a whistle or a creak. My home is supremely built and we have had no issues in the past year.

Home construction is never an easy or stress-free project. Through many of the difficult decisions that needed to be made, I felt confident and secure to have made them with guidance, experience and knowledge behind me.

I highly recommend Wadia Associates to any potential client. I welcome anyone to come see my home and a supreme example of workmanship.

Best,

Dawn Egan
