Dear Dinyar,

It is an honor to recommend you to anyone who is truly interested in creating a timeless home of distinction. Your vast knowledge of classic styles of architecture, combined with innovation and creativity are reflected in the awesome job you have done for us. In this day and age of "spec home sameness" it is always a pleasure to come home to our unique "palace". Since the renovation, our house has been on the Larchmont House Tour, been photographed for magazines and has continued to be the envy of all who pass through its doors. Words like "masterpiece" flow off the tongues of visitors, some who have even ventured to claim it's the nicest house they have ever seen.

I also want to express my gratitude for your relentless insistence on quality. So many times, Linda and I would try to cut corners or suggest alternate design ideas, most of which you did not agree with. Each and every time, once we had gone down our road, we would make a U turn and go down yours. You were never wrong!

I dream of the day when I will be able to call you once again to design my next dream home.

All the best,

Spencer Falk
