Dear Dinyar,

I was very worried when we embarked on the journey to restore a home built in 1760. It seemed like a monumental task taking on a very old home to which nothing had been done for at least twenty five years before we purchased it and transform it into warm, cozy home for today's living.

Your steady hand and unwavering enthusiasm transformed a home similar to the one in Grey Gardens, to a beautiful serene home for me to enjoy, surrounded by beautiful gardens.

Growing up I had always enjoyed visiting old homes surrounded by gardens in Baroda and had dreamt that one day I would have my own. My dreams of home and garden were brought to reality by you and your team's hard work, creativity and love for what you do.

I have many favorite places on the property that I like to visit. The brook garden is amazing as is the summer border and the peony garden, but most of all I love the old storage shed, now my tea house. It's a perfect spot for my friends and myself to have a quiet afternoon tea – away from the phone and the bustle of daily life.

Much love,

Gool.
