# Design TOWN

Architect Dinyar Wadia has his Mumbai roots to thank for his early interest in British Colonial design. Since 1969, Wadia has lived in New Canaan, Connecticut, where he founded his architecture firm 45 years ago. During his frequent visits to Palm Beach to manage his South County Road outpost, he resides in a Chilean Avenue apartment, but his passion is the lovingly restored 1760 home he shares with his wife in New Canaan. When he's not designing traditionally inspired single-family homes, he enjoys tending his garden and grounds. According to Wadia, New Canaan's quaint charm, distinct seasons, and proximity to New York City make it a desirable destination. "Ever since the Harvard Five began designing modern homes here in the mid-twentieth century, New Canaan has drawn those interested in architecture and design," he says. "It's the quintessential New England town." —*Skye Sherman*
